It isn't the material that goes into your repaired watch that results in a perfect job, it is the know how.

What does the business, any bungler can buy the fine kind of material but use in repairing; but skill is the most valuable material that can be used in watch repairing; and the bungler can't buy it. I sell my skill for what it is worth and it will cost you less than bungling at lower prices.

Every woman in the country ought to know about

Mother's Friend

Those who do know about it wonder how they ever got along without it. It has robbed childbirth of its terrors for many a young wife. It has preserved her girlish figure and saved her much suffering. It is an external liniment and carries with it therefore, absolutely no danger of upsetting the system as drugs taken internally are apt to do. It is to be rubbed into the abdomen to soften and strengthen the muscles which are to bear the strain. This means much less pain. It also prevents morning sickness and all of the other discomforts of pregnancy. A druggist at Macon, Ga., says: "I have sold a large quantity of Mother's Friend and have never known an instance where it has failed to produce the good results claimed for it."

A prominent lady of Lamberton, Ark., writes: "With my first six children I was in labor from 24 to 30 hours. After using Mother's Friend, my seventh was born in 4 hours."

Some Biscuit and Cake

are light, sweet and wholesome, while others are sour, heavy, bitter, unpalatable. The same flour, butter, eggs and sugar are used; what makes the difference?

It's all in the baking powder

DR. PRICE'S CREAM BAKING POWDER

can be depended upon always to make the food light, sweet, delicious and wholesome. This is because it is scientifically and accurately combined and contains the purest grape cream of tartar, the most healthful of all fruit acids, used for a hundred years in the finest leavening preparations.

NOTE—There are many alleged cream of tartar baking powders upon the market sold at lower prices, which prove, upon analysis, to be alum powders in disguise. Alum is a corrosive poison, which must not be taken in the food.

PRICE BAKING POWDER CO., CHICAGO.

EDITOR REPUBLICAN:

I regret my inability to have taken a more active part in this campaign. Every sense of honor and patriotism calls aloud for political activity. Since the sixties, no election has been so fraught with public danger. Can it be possible that this people will rush to the polls without weighing the all important issue? Men have said, oh, it's simply a question of McKinley or Bryan. What rot!

Talk about the tariff and the trusts? Not on the 6th of November. The money question? Not so, sir! We have a paramount issue. Mr. Bryan has chosen and christened it Urged on by partisanship, and blinded by ambition, he has confronted the flag with the ghost of disintegration. In its birth this nation was harassed with cries of centralization, oligarchy and imperialism. And again these cries were repeated from southern hills, when Abraham Lincoln led the van in that great fight for human liberty, which culminated in cementing this nation without the consent of all the governed. Today a thousand voices are crying themselves hoarse, with less reason in eulogy of the same delusion.

Imperialism! Reflect! So much accused, yet so little in fact that we have barely preserved our national integrity, and are not yet sufficiently centralized to levy an income tax to control interstate commerce of the trusts or to own and operate railroads and the ways of communication. But from whence came this cry of secession? From whence came rebellion? There seems a kinship. Is there a man in this country who has encouraged the Philippines in rebellion who has not cried imperialism! The cry imperialism is bald and dash. But upon it hinges this election. It is the thermometer by which American vitality will be registered.

A reversal of our financial policy may cause distress and even panic, still from it we would recover. It would be disagreeable, but would leave the national heart unmenaced. But to say that we should stop the war in the Philippines without having conquered or having been conquered; that our flag should be hauled down to compromise with rebels, were an everlasting stain.

None but a servile nation could be guilty of such conduct. To elect a man president for whom rebels cherish a feeling of friendship were deplorable. Heaven forbid!

If some future historian, writing our history, traces signs of approaching imperialism in this generation, he will locate them in disfranchisement, Crockerism, Goebelism and in Bryanism, all children of democracy.

Pause, voter, pause! Register thy vote with trembling hand, and in the fear of God, for a nation's honor weighs in the balance.

T. C. H. BAYERHOFFER.

Statesman Instead of Soldier

There is a remarkable document on file at the war department, the existence of which was unknown until a short time ago, when it was accidentally discovered. It is a letter written by Charles Pinckney Sumner to Philip Barbour of Virginia, secretary of war under John Quincy Adams, asking for the appointment of his eldest son, Charles Sumner, to the military academy at West Point. The application was ignored. Charles Sumner went to Harvard university instead and died a senator of the United States.

Litigation.

No, the trillionaire would not litigate. Sooner would he endure an invasion of his rights. "Were I to litigate," he protested, "I should almost certainly be the cause of numbers of innocent lawyers dying rich!" This charming anecdote shows conclusively that the possession of great wealth does not necessarily sear the finer sensibilities nor deaden the springs of noble impulse.—Detroit Journal.

Curious Effect of Lyddite.

The vapor given off by lyddite when it explodes has an extraordinary effect on the hair and face. When the British troops took possession of Cronje's laager, the Boer children, of whom there were about twenty-two, presented a curious appearance. Through the effects of lyddite their hair and faces had become quite yellow.

Looks Like an Englishman.

Says the London Graphic: "The king of Portugal, whom we have to thank for the friendly relations we still maintain with the little kingdom, is English in his tastes. His grandfather was a first cousin of the prince consort, and he himself is by no means a Portuguese in appearance, being a stout blonde man with a crop of fine curly hair."
